

Pain Registry BioBank

Defense & Veterans Center for Integrative Pain Management (DVCIPM) is enrolling in a Pain Registry Biobank Research Protocol to advance pain-related research at WRNMMC. We invite all persons eligible for healthcare at WRNMMC between the ages of 18 and 80 to participate. Although there is not a direct benefit to you for participating, we anticipate this research study will lead to new pain treatments, and diagnostic tools. This study will take approximately 2 hours of your time in the first year, and half an hour per year thereafter.

To learn more about this study, or to enroll,
please call **202-390-6798**
or you can email us at **biobankWR@usuhs.edu**
Dr. Harold Gelfand is the principal investigator

DVCIPM
